

## EzyChemistry – Edexcel course outline

**L = Video Lecture      A = Assessment      EX = Experiment**

### Section 1 – Key concepts

| Code   | Title                                       | Activity |
|--|---|----------|
| <b>Module 1 - Atoms and the Periodic Table</b> |   |          |
| 1.1.1  | Atomic Structure                            | L        |
| 1.1.2  | Mass Number, Atomic Number and Isotopes     | L        |
| 1.1.3  | The Development of the Model of the Atom    | L        |
| 1.1a   | The Atom                                    | A        |
| 1.2  | Relative Atomic Mass                        | L        |
| 1.2a   | Relative Atomic Mass                        | A        |
| 1.3.1  | History of the Periodic Table               | L        |
| 1.3.2  | The Periodic Table                          | L        |
| 1.3.3  | Electronic Structure and the Periodic table | L        |
| 1.3a   | The Periodic Table                          | A        |
| <b>Module 2 - Bonds</b>                        |   |          |
| 2.1.1  | Ionic Bonding                               | L        |
| 2.1.2  | Ionic Compounds                             | L        |
| 2.1a   | Ionic Bonding and Compounds                 | A        |
| 2.2.1  | Covalent Bonding                            | L        |
| 2.2.2  | Covalent Substances                         | L        |
| 2.2a   | Covalent Bonding and Substances             | A        |
| 2.3  | Metallic Bonding and Structures             | L        |
| 2.3a   | Metallic Bonding and Structures             | A        |
| 2.4  | Forms of Carbon                             | L        |
| 2.4a   | Forms of Carbon                             | A        |
| <b>Module 3 - Chemical Calculations</b>        |   |          |
| 3.1.1  | Balanced Chemical Equations                 | L        |
| 3.1.2  | Relative Formula Mass                       | L        |
| 3.1a   | Equations and Formula Masses                | A        |
| 3.2.1  | Mass Changes                                | L        |
| 3.2.2  | Chemical Measurements                       | L        |
| 3.2a   | Mass Changes and Chemical Measurements      | A        |
| 3.3  | Empirical formulae                          | L        |
| 3.3a   | Empirical formulae                          | A        |
| 3.4  | Concentrations of Solutions                 | L        |
| 3.4a   | Concentrations of Solutions                 | A        |

- 3.5.1 Moles L
- 3.5.2 Masses of Reactants and Products L
- 3.5.3 Using Moles to Balance Equations L
- 3.4a Moles A

## **Section 2 – States of Matter and Mixtures**

### **Module 1 - States of Matter and Mixtures**

- |                                    |    |
|------------------------------------|----|
| 1.1 States of Matter               | L  |
| 1.1a States of Matter              | A  |
| 1.2.1 Pure Substances and Mixtures | L  |
| 1.2.2 Separating Mixtures          | L  |
| 1.2.3 Distillation                 | L  |
| 1.2a Pure Substances and Mixtures  | A  |
| 1.3 Chromatography                 | EX |
| 1.3a Chromatography                | A  |
| 1.3b Chromatography                | A  |
| 1.4 Treating Water                 | L  |
| 1.4a Treating Water                | A  |

## **Section 3 – Chemical Changes**

### **Module 1 - Acids**

- |                                   |    |
|-----------------------------------|----|
| 1.1 Acids and Alkalies            | L  |
| 1.1a Acids and Alkalies           | A  |
| 1.2 The pH Scale                  | L  |
| 1.2a The pH Scale                 | A  |
| 1.3 Investigating Neutralisation  | EX |
| 1.3a Investigating Neutralisation | A  |
| 1.3b Investigating Neutralisation | A  |
| 1.4 Acids, Bases and Salts        | L  |
| 1.4a Acids, Bases and Salts       | A  |
| 1.5 Making Soluble Salts          | L  |
| 1.5a Making Soluble Salts         | A  |
| 1.6 Producing Soluble Salts       | EX |
| 1.6a Producing Soluble Salts      | A  |
| 1.6b Producing Soluble Salts      | A  |
| 1.7 Producing Insoluble Salts     | L  |
| 1.7a Producing Insoluble Salts    | A  |

### **Module 2 - Electrolysis**

- |   |   |
|---|---|
| 2.1 Electrolysis of Molten Ionic Compounds  | L |
| 2.1a Electrolysis of Molten Ionic Compounds | A |

|       |   |    |
|-------|---|----|
| 2.2.1 | Electrolysis of Aqueous Solutions (Theory)                                | L  |
| 2.2.2 | Electrolysis of Aqueous Solutions (Examples)                              | L  |
| 2.2a  | Electrolysis of Aqueous Solutions   | A  |
| 2.3.1 | Electrolysis of Aqueous Copper Sulfate with Inert Electrodes              | EX |
| 2.3.2 | Electrolysis of Aqueous Copper Sulfate with Copper Electrodes             | EX |
| 2.3.3 | Analysis of Electrolysis of Aqueous Copper Sulfate with Copper Electrodes | EX |
| 2.3a  | Electrolysis of Aqueous Copper Sulfate                                    | A  |
| 2.3b  | Electrolysis of Aqueous Copper Sulfate                                    | A  |
| 2.4   | Oxidation, Reduction and Half Equations                                   | L  |
| 2.4a  | Oxidation, Reduction and Half Equations                                   | A  |

## Section 4 – Extracting Metals

### Module 1 - Reactivity of Metals

|       |   |   |
|-------|---|---|
| 1.1.1 | Reactivity                              | L |
| 1.1.2 | Displacement Reactions                  | L |
| 1.1a  | The Reactivity Series                   | A |
| 1.1b  | The Reactivity Series                   | A |
| 1.2   | Extraction of Metals                    | L |
| 1.2a  | Extraction of Metals                    | A |
| 1.3   | Biological Methods of Extracting Metals | L |
| 1.3a  | Biological Methods of Extracting Metals | A |
| 1.4   | Balancing Equations                     | L |
| 1.4a  | Balancing Equations                     | A |
| 1.5   | Oxidation and Reduction                 | L |
| 1.5a  | Oxidation and Reduction                 | A |
| 1.6   | Recycling and Life Cycle Assessments    | L |
| 1.6a  | Recycling and Life Cycle Assessments    | A |

### Module 2 - Reversible Reactions and Dynamic Equilibria

|      |   |   |
|------|---|---|
| 2.1  | Reversible Reactions and Dynamic Equilibria | L |
| 2.1a | Reversible Reactions and Dynamic Equilibria | A |
| 2.2  | Factors Affecting Dynamic Equilibria        | L |
| 2.2a | Factors Affecting Dynamic Equilibria        | A |

## Section 5 – Separate Chemistry 1

### Module 1 - Transition Metals, Corrosion and Alloys

|       |                                 |   |
|-------|---------------------------------|---|
| 1.1   | Properties of Transition Metals | L |
| 1.1a  | Properties of Transition Metals | A |
| 1.2.1 | Corrosion                       | L |
| 1.2.2 | Electroplating                  | L |
| 1.2a  | Corrosion                       | A |
| 1.3   | Alloys                          | L |
| 1.3a  | Alloys                          | A |

**Module 2 - Quantitative analysis**

|       |                                       |    |
|-------|---------------------------------------|----|
| 2.1   | Acid-Alkali Titrations                | EX |
| 2.1a  | Acid-Alkali Titrations                | A  |
| 2.1b  | Acid-Alkali Titrations                | A  |
| 2.2.1 | Concentration and Molar Concentration | L  |
| 2.2.2 | Titration Calculations                | L  |
| 2.2a  | Titration Calculations                | A  |
| 2.3   | Yields                                | L  |
| 2.3a  | Yields                                | A  |
| 2.4   | Calculating Theoretical Yields        | L  |
| 2.4a  | Calculating Theoretical Yields        | A  |
| 2.5   | Atom Economy                          | L  |
| 2.5a  | Atom Economy                          | A  |
| 2.6   | Reaction Pathways                     | L  |
| 2.6a  | Reaction Pathways                     | A  |
| 2.7   | Volumes of Gases                      | L  |
| 2.7a  | Volumes of Gases                      | A  |

**Module 3 - Dynamic Equilibria and Cells**

|       |                     |   |
|-------|---------------------|---|
| 3.1   | The Haber process   | L |
| 3.1a  | The Haber process   | A |
| 3.2   | Fertilisers         | L |
| 3.2a  | Fertilisers         | A |
| 3.3.1 | Cells and Batteries | L |
| 3.3.2 | Fuel Cells          | L |
| 3.3a  | Cells               | A |

**Section 6 – Groups, Rates and Energy Changes**
**Module 1 - Groups in the Periodic Table**

|       |                   |   |
|-------|-------------------|---|
| 1.1.1 | Group 0           | L |
| 1.1.2 | Group 1           | L |
| 1.1.3 | Group 7           | L |
| 1.1a  | Groups 0, 1 and 7 | A |

**Module 2 - Rates of Reaction**

|      |                               |   |
|------|-------------------------------|---|
| 2.1  | Rates of Reaction             | L |
| 2.1a | Rates of Reaction             | A |
| 2.2  | Calculating Rates of Reaction | L |
| 2.2a | Calculating Rates of Reaction | A |

|       |   |    |
|-------|---|----|
| 2.3.1 | Investigating Rates of Reaction (Concentration) | EX |
| 2.3.2 | Investigating Rates of Reaction (Temperature)   | EX |
| 2.3a  | Investigating Rates of Reaction                 | A  |
| 2.3b  | Investigating Rates of Reaction                 | A  |
| 2.4.1 | Collision Theory and Activation Energy          | L  |
| 2.4.2 | Factors Affecting Rates of Reaction             | L  |
| 2.4.3 | Catalysts                                       | L  |
| 2.4a  | Factors Affecting Rates of Reaction             | A  |

### **Module 3 - Energy Changes**

|      |                                      |    |
|------|--------------------------------------|----|
| 3.1  | Exothermic and Endothermic Reactions | EX |
| 3.1a | Exothermic and Endothermic Reactions | A  |
| 3.1b | Exothermic and Endothermic Reactions | A  |
| 3.2  | Reaction Profiles                    | L  |
| 3.2a | Reaction Profiles                    | A  |
| 3.3  | Calculating Energy Changes           | L  |
| 3.3a | Calculating Energy Changes           | A  |

### **Section 7 – Fuels and earth science**

#### **Module 1 - Fuels and Earth Science**

|       |                            |   |
|-------|----------------------------|---|
| 1.1.1 | Hydrocarbons               | L |
| 1.1.2 | Alkanes                    | L |
| 1.1.3 | Crude Oil                  | L |
| 1.1.4 | Cracking                   | L |
| 1.1a  | Crude Oil and Hydrocarbons | A |
| 1.2   | Atmospheric Pollution      | L |
| 1.2a  | Atmospheric Pollution      | A |
| 1.3.1 | History of the Atmosphere  | L |
| 1.3.1 | The Greenhouse Effect      | L |
| 1.3.2 | Global Climate Change      | L |
| 1.3a  | The Atmosphere             | A |

### **Section 8 – Separate Chemistry 2**

#### **Module 1 - Identification of ions**

|       |                                       |    |
|-------|---------------------------------------|----|
| 1.1   | Chemical Tests for Ions               | EX |
| 1.1a  | Chemical Tests for Ions               | A  |
| 1.1b  | Chemical Tests for Ions               | A  |
| 1.2.1 | Instrumental Methods                  | L  |
| 1.2.2 | Flame Emission Spectroscopy           | L  |
| 1.2a  | Instrumental methods and Spectroscopy | A  |

**Module 2 - Alkenes, Alcohols and Carboxylic Acids**

|       |  |    |
|-------|--|----|
| 2.1.1 | Structure of Alkenes                   | L  |
| 2.1.2 | Reaction of Alkenes                    | L  |
| 2.1.3 | Alcohols                               | L  |
| 2.1.4 | Ethanol Production                     | L  |
| 2.1.5 | Carboxylic Acids                       | L  |
| 2.1a  | Alkenes, Alcohols and Carboxylic Acids | A  |
| 2.2   | Alcohols and their use as Fuels        | EX |
| 2.2a  | Alcohols and their use as Fuels        | A  |
| 2.2b  | Alcohols and their use as Fuels        | A  |

**Module 3 - Polymers, Nanoparticles and Materials**

|       |                                   |   |
|-------|-----------------------------------|---|
| 3.1   | Addition Polymerisation           | L |
| 3.1a  | Addition Polymerisation           | A |
| 3.2   | Condensation Polymerisation       | L |
| 3.2a  | Condensation Polymerisation       | A |
| 3.3   | Natural Polymers                  | L |
| 3.3a  | Natural Polymers                  | A |
| 3.4.1 | Uses of Polymers                  | L |
| 3.4.2 | Problems with Polymers            | L |
| 3.4a  | Uses of Polymers                  | A |
| 3.5.1 | Nanoparticles                     | L |
| 3.5.2 | Uses of Nanoparticles             | L |
| 3.5a  | Nanoparticles                     | A |
| 3.6.1 | Ceramics, Polymers and Composites | L |
| 3.6.2 | Comparing Materials               | L |
| 3.6a  | Ceramics, Polymers and Composites | A |
